

ABOUT NASSCOM FOUNDATION

Established in 2001, Nasscom Foundation has been witness to the transformative power of technology for over two decades. Part of the NASSCOM ecosystem, we are the only neutral not-for-profit organization representing the Indian tech industry. We remain rooted to our core philosophy of TechForGood, where our efforts are focused on unlocking the power of technology by creating access and opportunity for those who need it the most. We work on helping people and institutions transform the way they tackle social and economic challenges through technology. We have five key areas of intervention - Digital Literacy, Skilling and Employability, Women Entrepreneurship, Scaling Social Innovation and Empowering NGO Ecosystem.

ABOUT THE PROJECT

Nasscom Foundation, is establishing a Digi Lab at ZPHS Hayatnagar, Rangareddy District, Hyderabad under the Coupa 2.0 Project. The initiative aims to strengthen digital infrastructure within the school by creating a dedicated technology-enabled learning space equipped with modern digital tools and resources. The Digi Lab will provide students and teachers with access to a well-equipped environment that supports technology-enabled education and helps create a future-ready learning ecosystem within the school.

Scope of Work

As part of this initiative, Nasscom Foundation is inviting proposals from eligible vendors for the procurement, delivery, installation, and setup of equipment and infrastructure required for the Digi Lab. The scope of work includes the supply and installation of UPS units, webcams, headsets, an interactive digital board, sliding magnetic board, laser printer, speaker system, wireless microphones, and IP cameras. The selected vendor will also be responsible for carrying out whitewash and electrical fitting work required for the preparation of the lab space, along with the installation and setup of computer systems and all equipments. The assignment includes ensuring that all equipment is functional and ready for use, along with the submission of warranty documents, asset details, product manuals, and AMC support details wherever applicable

Deliverables and Timeline

The selected vendor will be expected to complete the supply, installation, and setup of all approved equipment and infrastructure by August 2026. Deliverables will include installed equipment, completed site preparation work, final asset inventory, warranty documents, user manuals, AMC details (where applicable), and a completion report supported by photographs of the installed Digital Learning Lab.

If your organization has the relevant expertise and experience to undertake this assignment, we invite you to submit your proposal after carefully reviewing the detailed RFP document.
